

## INTEGRATED MANAGEMENT SYSTEM POLICY

AFSI Europe s.r.o. was set up in 2007 and is active in the manufacture, assembly and sales of fuel, oil and hydraulic filters and water separators. The mother company is AFSI with its seat at Champaign, Illinois.

In the Integrated Management System Policy the top management of the Company commits to customer satisfaction through continuous improvement of products, processes and service. The Company undertakes its activities in compliance with the principle of sustainable development and at the same time it pays attention to health and safety of its employees.

### **AFSI Europe s.r.o. also commits to fulfilment of the bellow-stated principles:**

- 1) To improve continuously the Integrated Management System with the aim to increase quality, health and safety of employees, environmental efficiency and to reduce the energy performance.
- 2) To fulfil obligations according to relevant binding obligations including customer's requirements and legal requirements which apply to our Company.
- 3) To ensure availability of information and resources necessary for achievement of goals and target values of the Integrated Management System.
- 4) To improve continuously knowledge of our employees and awareness of the significance of the IMS.
- 5) To communicate openly and cooperate with all interested parties and meet their needs.
- 6) To contribute to prevention of the origins of the injuries and the health harm and to contribute to the continuous improvement in subject of health and safety.
- 7) To contribute to protection of the environment as a whole with the aim to achieve sustainable development.
- 8) To implement the pollution prevention system taking into account existing processes, their changes and newly implemented processes.
- 9) To use efficiently the energy sources leading to continuous reduction of the energy performance.
- 10) To reduce waste production and increase waste utilisation.
- 11) To promote purchases of energy-saving products and services and reduction proposals concerning the energy performance.

The Integrated Quality, Environment and Energy Management System has been given priority in our Company's strategy and we see it as the essential prerequisite for reaching a successful market position.
